

GRASSCLIPPINGS

FROM THE GREENSPACE COMMITTEE

Hello Neighbors... spring is here and the Raven Crest Green Space Committee has been hard at work planning for the upcoming season. The HOA has approximately 4 acres of park to care for so the committee comes in handy and is composed of 4 fellow homeowners (Jodi 970-417-6408, Kathy 970-240-9498, Paul 970-209-3280, Lynn 970-249-2425) who volunteer their time and effort to keep everything looking good and growing well.

Last fall the committee trimmed trees and did a general cleanup throughout the park area and the large retention pond was cleaned this spring. But, there is more to do! We will be turning on the irrigation for the park areas within the next few weeks and working with our new lawn care company, Prestige Lawn Care, to keep things looking good throughout the growing season. Fertilizing, weed control is also scheduled and the corner gardens will be tended throughout the growing season.

But, we need your help as well. Are there 2-3 homeowners who have pickups and/or trailers who would be interested in hauling branches & other material (no grass clippings) from time-to-time during the season? If so, please call Lynn (number above) and let her know.

There will also be other opportunities for you to help with our lovely park areas. Stay tuned for details in a future newsletter.

Until then, we look forward to seeing you out and about!
Happy Spring!
